EDUCATION

2022 - 2025

BE Computer science engineering
Bharathidasan Engineering college
CGPA 7.86 till 3rd sem

2007-2021

Hindu Higher secondary school

12th- Graduation

Percentage - 64.33%

10th- Graduation

Percentage - 59.60%

AREA OF INTEREST

- Web App Development
- Data Analyst
- Machine learning
- Creating UI/UX Design
- Problem Solving

PROFILE INFO

Experienced Full Stack Developer and Data Analyst with expertise in front-end and back-end technologies, including JavaScript, React, and Node.js. Skilled in data analysis and visualization using Python and SQL, transforming complex data into actionable insights. Adept at creating robust, data-driven solutions to drive business success.

WORK EXPERIENCE

Project Intern   **Remote**   **2024 jan-feb**
Developing a project for Kashiv info tech
as Data analytics .
Outcome:l Data cleaning, Analysis , Statistics data visualization

Data analyts Intern   **Online**   **2024 sep - oct**

Worked as Data analytics Intern at Technohacks edu.
Outcome: Data cleaning and data visualization

Project intern   **Remote**   **2023 Jan - march**

Worked as Data analytics Intern at letsgrowmore
Outcome: Data cleaning and data visualization

MY SKILLS & EXPERTISE

- Web App Development
- Machine learning
- Data analytics
- Database Management
- UI/UX Design
- Problem solving DSA

CORE SKILSS

- HTML 5
- CSS
- JavaScript
- React js
- Node js
- Express js
- Mango DB
- PHP
- Python
- Ruby
- Pandas
- Numpy
- Matplotlib
- Data visualization
- Statistics
- Mysql
- Postgresql
- Fire Base
- Excel
- Tableau
- Power Bi

TOOLS , TECHNOLOGY

- Visual studio
- Sublime
- Figma , Canva
- Docker
- Git ,Github
- Web automation
- Postgresql
- Power Bi
- jupyter
- Excel

Operating System

- Windows
- Uninx/ linux
- MAC

LANGUAGE

- English
- Tamil

PROJECTS

PRODUCT ANALYST
Position: Sole developer (Individual project)
Discription : Data analytics projects analyze the Amazon product analysis product dataset to gain insights into the products ,market, user trends, etc

TECHNOLOGIES USED: PY,PANDAS NUMPY MATPLOTLIB, DATA SEABORN

INNNOFICHOLAS   Position: Team Leader

Discription : Innoficholas is a out startup company Developed has features like Web site marketing,data analysis etc Build your business. Technologies used: Html,css,js, nodejs,reacts etc

GOOGLE PLAY STORE DATA ANALYST
Position: Sole developer (Individual project)

Discription : Data analytics projects analyze theGoogle Play Store's app dataset to gain insights into the app market, user trends, etc

TECHNOLOGIES USED: PY,PANDAS NUMPY MATPLOTLIB, DATA SEABORN

ONLINE COURSE

introduction to Data analytics Python libraries for data science   **Simplilearn**

INCLUDES: IDLE-py, pandas , Numpy, matplotlib PERIOD:2 weeks

Data visualization with Power bi   **Great learning**
Includes :Data Transformation,Charts and Page Layout, Reports & Special VisualizationsskillBuilding Narratives with Fabric Working with Copilot Featur. PERIOD : 2 Weeks

SOFT SKILLS

- Self Motivated
- Ability to be strong leadership
- Strong leadership
- Willingness to learn

DECLARATION

I hereby declare that the information given above is true to the best of my knowledge.
